Description

African sideneck turtles are a medium-sized turtle species that can reach a maximum length of 12 inches. They have a long, slender neck and a flattened shell. Their coloration can vary, but they are typically olive green or brown with yellow or orange markings.

African sideneck turtles are found in a variety of habitats, including swamps, marshes, and rivers. They are semi-aquatic and spend much of

their time in the water. They are also good climbers and can often be found basking on rocks or logs.

Lifespan

African sideneck turtles have a lifespan of 20-30 years in captivity. With proper care, they can live even longer.

Diet

African sideneck turtles are omnivores and will eat a variety of foods, including:

- Insects
- Worms
- Fruits
- Vegetables
- Pellets

It is important to offer your turtle a variety of foods to ensure that they are getting all the nutrients they need. You should also feed your turtle regularly, but not too often. Overfeeding can lead to obesity and other health problems.

Habitat

African sideneck turtles need a habitat that is both spacious and secure. The enclosure should be at least 40 gallons in size, and it should have a secure lid. The enclosure should also include a basking area, a swimming area, and a hiding area.

The basking area should be at a temperature of 90-100 degrees Fahrenheit. The swimming area should be at a temperature of 75-80 degrees Fahrenheit. The hiding area should be dark and cool.

You should also provide your turtle with a variety of hiding places, such as caves, logs, and plants. This will help them to feel safe and secure.

Health

African sideneck turtles are generally healthy animals, but they can be susceptible to a variety of health problems, including:

- Salmonella
- Respiratory infections
- Shell rot
- Parasites

It is important to take your turtle to the vet for regular checkups. This will help to ensure that they are healthy and free of disease.

African sideneck turtles are a great choice for reptile enthusiasts who are looking for a relatively easy-to-care-for pet. They are hardy animals that can tolerate a variety of conditions. With proper care, they can live for many years and make great companions.
